DESCRIPTION

The semi-automatic BDC 200 SM is the ideal device for small artisan enterprises. It can be mechanically connected to any filler. By operating synchronically with the filler, the BDC 200 SM enables a precise portioning of sausage products by weight: the pneumatic casing brake ensures that each portion receives the same amount of filling. The double clipper is ideal for closing sausage products (whether log- or ring-shaped) in a caliber range of 25 – 100 mm.

HIGHLIGHTS

- Automatic filler control
- Compressed air operation - no electrical power required
- Corrosion-proof stainless steel and plastic construction
- With mobile, height-adjustable undercarriage
- Pneumatic casing brake
- Pivotal clip head for loading the filling tube

OPTIONAL EXTRAS

- Special blade for soft casings
- Automatic loop positioner
- Automatic string dispenser

TOOL CHARACTERISTICS

Height	Width	Length	Weight
1800 mm	500 mm	1000 mm	53 kg

Clip Capacity

2x 350 Clips

Caliber

25 - 100 mm
