Starrett®

Product code DV86302

Product description 10" Red Sharpening Steel Knurled Finish

Description

Developed to ensure product quality and safety during the sharpening process the Starrett® sharpening steel aligns the edge of the knife blade, resulting in sharper, more precise, faster cuts, maintaining the durability of the knife blade for longer.

- Knurled rod
- High carbon steel
- Hard chrome coating
- Magnetised (retains the knife chip)
- NSF certification
- Injection moulded ergonomic handles with Antimicrobial Sanitized protection
- Available in 6 colours in conjunction with the food hygiene colour coding system
- Ease of cleaning
- High durability
- Realigns the blade edge
- Increased resistance to oxidation
